

THE BLAIRMORE ENTERPRISE

VOL. IV. NO. 81.

BLAIRMORE, ALBERTA, THURSDAY, AUGUST 22, 1912

\$2.00 YEARLY

PUBLIC APOLOGY

The F. M. Thompson Company, Blaimore, regret that so many patrons were turned away unserved last week, and are quite appreciative of the intention of many to come again.

The staff has now been ably supplemented and all comers can rely upon the best possible service.

The Lille Stock is on sale now and many real snaps are evident, so there will be opportunity for compensation to the many disappointed ones of last week.

Store open until 8.30 p.m., except Wednesday

Miner Killed in Blaimore Mine

Steve Roboluk, a Foreigner, Succumb While in Pursuit Of Livelihood

A miner named Steve Roboluk, was accidentally killed in the mine at Blaimore on Wednesday forenoon. It seems that he had been digging when a pile of coal or rock tumbled on him, and before he could be extricated life had fled from him. His body was removed to the morgue where a preliminary examination was held before Coroner Pinkney. An inquest into the cause of the death of Steve Roboluk will be held tomorrow, Friday.

Roboluk was 35 years of age, and leaves a wife and two children residing in Blaimore. Funeral took place this afternoon at the Blaimore cemetery, Rev. Father Delester officiating.

Injured at Cement Works

James Stewart, employed at the Rocky Mountain Cement Company's plant, received serious injuries on Wednesday morning. His head was severely crushed and for a time it was thought he would not live. At the time of our going to press we learn from the hospital that there is hope for his recovery.

Miner Killed

At Coal Creek

Fernie, B. C. Aug. 19.—Richard Hembro, a Welsh miner, was badly mangled and instantly killed in a mine, Coal Creek, this afternoon, just before the shift came out of the mine. Hembro was a rope boss and the rope broke letting a trip of several coal cars back over him. Hembro had not been working in the mine very long and leaves a wife who had just come out from Wales to join him.

Supt. of Grenfell

Mission Convicted

Superintendent C. H. Karnopp, of the Grenfell Seamen's Institute, Newfoundland, was arrested recently upon a deposition made by Dr. Grenfell, charging him with misappropriation of the mission funds to the amount of \$1,000. The action was taken by Dr. Grenfell after the report of the chartered auditors who annually audit the accounts of the mission. Karnopp was found guilty and sentenced to six months with hard labor.

Building of New Church

Still a Rife Subject

Rev. Dr. Ferguson, superintendent of Presbyterian missions, met the management committee of First Presbyterian church on Monday night, for the purpose of discussing church affairs and renewing activities in connection with the erection of the new church.

The managing board decided to take immediate steps in the hope that the new church might be completed by the end of the present year.

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Liniment twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by all dealers.

Disposition of Lille Church Funds

(Crowded out of our last week's issue)

At Lille, on August 14th, a special meeting of the Lille session of the Y.P.S.C.E. was held in the school room at 7.30 p.m. W. P. Williams presided. Kenneth L. Dawson acted as secretary for the meeting. The business before the meeting was the disposition of the funds left on hand in the various societies of the church owing to the closing of the mine. The money was disposed of as follows: The Sunday School funds, amounting to \$27.83 in the hands of the superintendent, W. P. Williams, to be sent to the Rev. T. M. Murray, Coleman, to be held by him until he can decide whether or not it will be needed in Lille. Should Lille not open up again, he can devote it to any church funds he fits.

It was agreed that the balance of the Ladies Aid Fund, \$9.25, be handed over to F. Anderson, treasurer, to be paid over in full with the amount at present on hand, \$12.05, to the Rev. James Lang for his services as preacher.

The Church Building Fund, to the amount of \$84.60, to be turned over to the Presbyterian church of Canada for three years, at the end of which time, if Lille should be opened up again, same to be returned to Lille Presbyterian church building fund, and in the event of Lille not opening up, after three years the same to become the property of the Presbyterian church of Canada.

It was agreed by the members present at this meeting, that the funds of the Y.P.S.C.E. be added to the building fund.

The following members were present: W. P. Williams, Frank Anderson, elders, Messrs. Searle McDonald and Williams and Miss Williams. Miss Norton, Messrs. Earle Keith and K. L. Dawson.

Signed, W. P. Williams, Chairman.
K. L. Dawson, Secretary.

Macleod Hospital Opening

The formal opening of Macleod's magnificent new Municipal Hospital, took place last Thursday evening, and was a notable event in the history of the town.

The hospital is an imposing building, brilliantly illuminated, with columns gleaming white, and presents a most attractive appearance.

The interior is spotless. Highly polished hardwood floors and white walls give the various wards a most inviting appearance.

The hospital contains forty-one beds. There are seven private wards, four semi-private wards, and four public wards.

The operating room is on the top floor. All the surgical cases will be treated on this floor.

The lower floor is the medical floor.

Balconies for the convalescent will make getting well a restful dream.

Many visitors visited the building and admired its appointments. Mayor Stedman after making a few brief remarks called upon Premier Sifton who formally declared the hospital open.

The building cost \$40,000, and its appointments are modern in every respect. A long needed want has been supplied and an acquisition to the city that its citizens can justly look upon with pride for years to come.

"Jim" Burrows Gains a Knockout

Maintains Title of "Middleweight Champion of The Crows' Nest Pass."

The boxing match staged at the Blaimore opera house on Saturday night resulted in another victory for champion Burrows. The accommodation at the opera house was almost taxed, large numbers having arrived from all points between Pincher Creek and Fernie, to witness the re-appearance of Burrows in the ring.

A good fast preliminary was staged at 10.15 between Bennie Rees, of Hillorest, and Louis Britano, of Bellevue, two swift combatants, who are attracting great interest in the wrestling and pugilistic circles at the present time. Rees is holder of the lightweight wrestling belt for Alberta, while Britano is aspiring for the featherweight championship of Western pugilists.

This bout lasted five rounds, and resulted in a draw, being really the finest exhibition of the art ever witnessed here.

The main figures of the evening entered in the circle at 10.55; both Jim Burrows and Tommy Tapella appearing in good trim.

At the call of time, both stepped and shied around in quest of an opponent. Tapella hit a heavy left

knuckle Burrows right ear, but with very little effect. Burrows soon returned with a stiff left under the right jaw, followed by a similar blow with the right under the left jaw which seemed to daze Tapella.

Tapella's arms swung open and he started to fall backward, when Burrows dealt the final under the right ear, which sent Tapella to the floor like a flash, his head coming in heavy contact with the hard board. At its count by referee Granger, Tapella was carried to his chair dazed, where stimulants were administered here by his disappointed admirers. Only 55 seconds elapsed from the call of "time" till the knockout, when Burrows was announced victor.

It was announced that Dominick Marshall had challenged the winner and would meet Burrows on some date to be announced later.

Meeting of Quarterly Official Board

The first meeting of the quarterly official board of Knox Methodist church, for the year 1912-13, was held at the home of J. C. Patmore on Tuesday evening.

The minutes of previous meeting were read and adopted.

It was announced that it would be necessary to raise the sum of \$1,085.00 to defray the current expenses of the year, and that the mission board would be asked for assistance.

A. I. Blais was elected delegate to represent the church at the district meeting to be held at Claresholm next week end.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your strength, your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

W. J. BASTLEY, Proprietor.

Blairmore, Alta., Thurs., Aug. 22, 1912

The big pay day last week

gave new impetus to business

life. Never before has there

been such a rushing trade done

by the stores of this section of

The Pass, and conditions gen-

erally are of the most encour-

aging nature.

Some "meal tickets" were

handed around, inviting terps-

ichoreans to a ball in Blairmore

this week. The printing was

done out of town and the affair

received its due share of patron-

age. "S-o-a-k-e-d" is the

term now used to describe the

feelings of the parties who suf-

fered from the experience of

defying the home industry.

It is regrettable that the govern-

ment will insist upon patch-

ing the old road to Coleman

and other places where they

unnecessarily course up the hill-

sides, while a comparatively

level and straight right-of-way

can so easily be found where a

road could be constructed at

little more cost than that of

patching the old undesired

route.

Last week we made reference

to the matter of home invest-

ments, and repudiated the idea

of ignoring the home advan-

tages and investing our sur-

pluses in outside propositions.

As a matter of fact one can

hardly be blamed for sending

their money out of town when

we realize that it is impossible

to buy some property owing

to the existence of a caveat,

which prevents anyone from

purchasing or procuring a clear

title to property in certain

parts of the town. Steps should

be taken by our citizens to ar-

range with the Dominion gov-

ernment whereby that body

might take the matter in hand,

raise the caveat, and after the

rightful owners to the townsites

have been decided upon, to pay

to them such monies as may

have been collected for sales.

General Booth**Passes Away**

General William Booth, head

of the Salvation Army, passed

his rest on the night of

August 20th, at the ripe old age

of 83 years. It will be remem-

bered that a long time since the

General lost sight of both eyes,

and in spite of this affliction,

declared that he would carry

out his plans to visit Canada

and the United States. The

whole world now mourns one

of the greatest evangelizers in

history.

The August Rod and Gun

An interesting description of

Gatta Day, Newfoundland's great

national summer fete day is con-

tributed to the August issue of

Rod and Gun, published by W. J.

Taylor, Limited, Woodstock, Ont.

by W. Lacey Amy. Following

this one is interested in the re-

production of the photographs or

paintings made by the Kootenay

Indians on rocks of their native

Province and in their story as told

by Chas. D. Ellis. The same

author also contributes the story

of a trip on Toby Glacier and up

Mt. Gleanon. The illustrations

accompanying which help to make

the reader forget the hot summer

weather. Messrs. Croft, authors of

the Culture of Black and Silver

Foxes, have still another article

in the August number which as

usual, is well illustrated. Many

other articles deal with summer

vacations in Canadian territory.

Happenings in and**Around Blairmore**

Mrs. L. H. Putnam is attending

the Lethbridge fair.

Mrs. C. J. Pegg returned Tuesday

from a trip to the coast.

Mrs. Patmore returned this week

from a short visit to Calgary.

Rev. Fr. Sammut paid a visit to

Fincher Creek on Wednesday.

Dr. Wright, dentist, of Fincher

Creek, spent Saturday in town.

F. M. Thompson Co. will be open

until 8:30 o'clock this week only.

We are pleased to see Thomas

Fraser around again after a short

illness.

Mr. and Mrs. R. M. Brice went

to Lethbridge Tuesday to attend

the exhibition.

Mrs. Thos. Fraser returned last

week from a visit to friends in

Medicine Hat.

George Brown has returned from

a three months' trip to the mari-

time provinces.

The fortnightly meeting of the

city fathers will take place on

Monday night next.

Miss E. Latta, of Cowley, came

to town on Monday to spend a few

days with her sister.

Mr. Breckenridge, of the B. & L.

Coal Company, Lundbreck, was in

town on Saturday last.

W. Howie, of Pettit & Howie,

Cowley, paid a business visit to

Blairmore on Tuesday.

Rev. Dr. Ferguson, superintendent

of Presbyterian missions, paid

a visit to Blairmore on Monday.

McLaren's Mill is running full

swing these days. At present their

yards represent great enterprise.

V. Hawkins and J. Hughes, of

Cowley, spent Sunday in town, ad-

miring the scenery, e-t-c-e-t-c-r-a.

Work on the dam at York Creek

is being rushed and will be com-

pleted in the course of a week or

two.

Two large steel spans and fit-

tings have arrived for the C.P.R.

bridge over the Old Man river near

York Creek.

Mrs. Billie and baby, of Moose

Jaw, are at present visiting friends

in Blairmore and are the guests of

Mrs. Pinkney.

Mr. and Mrs. Schofield, of

Pincher Creek, spent Tuesday in

town, the guest of Mr. and Mrs.

Samuel Berry.

Miss M. Smith, who spent sev-

eral days with friends in town,

returned to Lethbridge, via Cow-

ley, on Sunday night.

A number of young people were

the guests of Rev. and Mrs. J. F.

Hunter on Thursday last, where

an enjoyable evening was spent.

A. W. Robbins, who is in charge

of road repairing between Blair-

more and Coleman, has made some

much needed improvements in the

main highway.

Rev. Maclean Beaton returned

from Banff, where he had been at-

tending the summer schools and

took charge of the services at the

Presbyterian church on Sunday.

Two shipments of Wild Rose

Creamery butter in every week.

Some as good, but none better.

Make us prove it. Our price 35c

per pound.—Alberta Trading Com-

pany.

Paul Pollock, a Polish laborer,

died at McLaren's Mill on Sunday

last, after a brief illness. Pollock

was a middle aged man and leaves

a wife and several children in

Russia.

The 20-round boxing contest to

be given at Bellevue on Labor

Day, September 2nd, promises to

attract great interest. The day

being a general holiday, the match

has been arranged to take

place in the afternoon, the

preliminary to start at 3:30

sharp and the main bout at

4 p.m., so that parties from

points west can make convenient

railway connection.

H. G. Bigelow, F. E. Hinde, Jos.

Montalbet, J. R. Irwin, F. W.

Doubt and W. J. Parlett took in

the Xibral Lethbridge on Wednes-

day.

The C.P.R. bridge carpenters

have commenced building the

moulds for the concrete work on

the new bridge crossing the Old

Man river east of McLaren's mill.

Thompson & Co.'s big sale, which

started on Thursday last, is prov-

ing a banner success. Mr. Smith,

who is in charge of the sale, states

it is the most successful he has

ever conducted.

Saturday was the busiest day in

the history of the Blairmore stores.

At night the stores could not han-

dle every customer and a great

many had to go away without be-

ing served.

A number of Oddfellows went to

Lethbridge Wednesday, where

they received the encampment de-

grees. An encampment lodge will

be organized in Blairmore in the

near future.

Cutting is in full swing in the

Cowley district, and if present

weather conditions continue the

harvest will be a record one. Crops

in Cowley section are believed to

be the best in the Dominion.

Hillcrest Happenings

Jack Quinlan has returned to town after several weeks' down East. He is looking better than ever and feels confident of maintaining his enviable reputation as the best all round tennis man in the Pass. He is open to receive challenge from any that can give proof of being able to put up a fairly good game.

Mr. T. L. Ferguson of Dublin, Ireland, was a visitor in town last Saturday and again on Tuesday. Mr. Ferguson states that the crops all along the line are in first class shape and from his extensive knowledge of grain, thinks that Canada is about to have another bumper harvest.

The Noble Six thank the anonymous author for the song so kindly dedicated to them. While fully appreciating the honor thus thrust upon them they all are willing and respectfully beg to suggest that the next edition of this popular song be dedicated to "The Passive Protesters", and the title slightly to read "Sour Grapes."

Uncle Charlie happened along last week and was accorded a hearty welcome. This well known character is of the opinion that his home town is getting too slow and he is thinking seriously of coming to Hillcrest. We can assure him that no one ever loses anything around this burg and possessions will all be religiously respected, excepting only the bottled goods.

Apart from all this joshing and friendly little would be silencers we think our Burnis friend with whom we have had the honor of squabbling once before, is a little off his base when he talks of the dirty mean underhanded unportemanklike and other adjectival ways followed by Hillcrest in winning the cup. Surely there cannot be anything so radically wrong with a team that has gone through the whole season without either putting in a protest or having a protest even registered against them. Can't be, surely. Of course when one has waded through the muck and mire of some six or eight protested game one should be in a position to know but we are personally from Missouri. Then again, although living right here all through the entire football season we never heard of the team we are so darn proud to champion "postponing" a game because players under transfer from disbanded teams had not had time to become fully fledged members of the team and thus able to play in the league games. No, sir, the Noble Six were entirely justified in the action they took in the matter and can sing the original song "How to be Sporty" with as much zest as any. In fact, they can do more than sing, they can come mighty near showing all in this locality that they are willing to meet any team half way in all sporting matters. To this effect, and to cinch matters, the Hillcrest Football club hereby issue a challenge to any of the teams competing in the Southern Alberta (Pass) Football League to play any of those clubs on any ground the challengers name—not for the sake of crowing over their victory—any sum from fifty (\$50.00) to three hundred (\$300.00) dollars. All communications referring to this challenge are to be addressed to the secretary of the Hillcrest Football Club, Hillcrest, Alta., and the senders may rest assured of prompt action being taken with all received. Money talks, Burnis, and its distinctly up to you. Nuff sed.

(Crowded out of last week's issue.)
The football game played at Bellevue on Saturday last between Hillcrest and Bellevue attracted a large crowd of spectators. Perhaps the proposed smucker after the game and something to do with it, but Hillcrest was practically depopulated that night. The game was a return for the one played between the same teams at Hillcrest two weeks ago, and it certainly evened things up a

little. For Hillcrest, the victors of the original game met defeat at Bellevue on this occasion to the tune of two to nothing. The game started at 7.30, the ball kicked off by Hillcrest. The boys made a dash as per schedule to the Bellevue goal but the Bellevue back, backed up by big Jim Lindsay, had something to say and the ball was sent back to the Hillcrest half. Casey happened along at this juncture and after a piece of brainy work sent the ball among the Hillcrest forwards. Both teams seemed to be too much of the same opinion for either to score for both wanted to have the game to themselves. Lindsay, the star goal-keeper, was in great form and had the attack demoralized for the first half on several occasions just playing with the Hillcrest men and laughing at their unswerving endeavor to put the ball past him. Little Johnny Grimeshaw however was not to be daunted and repeatedly tried to get past James, but with no success. After play had been going on for some time the Bellevue forwards got hold of the ball and with the aid of one of the represent allies of law and order in the wild and woolly west put the ball into the Hillcrest net. This cheered the home team considerably for they had anticipated a disgraceful defeat from the winners of the Southern Alberta League cup, and they continued to press the Hillcrest defence. Jones, the star engineer, put up a first class defence game for Hillcrest nobly seconded and thirded by Moorhouse and Wicks. The Bellevue men were now on their mettle and apart from an occasional dash down the field by the Hillcresters in their usual style the home team had the game all their own way. Towards the latter part of the second half another goal was scored for Bellevue, this time being sent past Growther by some player whose name we unfortunately did not learn, but who according to Mr. Lindsay and Wigan Pete, was them all skinned. Shortly after the second goal was scored darkness stole upon us and referee Scott Houston decided to postpone the rest of the game until after the smucker. Being on the water wagon we returned to Hillcrest and so did the others for the "big smucker" turned out to be the base representation of smucking was skinned, likened to a thorn on who capitalizes upon a shooting—this upon the impeccable authority of our friends, the President of the Order of Gutzks, whose platitude we are pleased to acknowledge.

Coast to Coast

New Westminster, B.C. Aug. 18.
—An attempt to traverse Canada from Halifax to Vancouver is to be made this fall by Mr. Horbert Gilley, of New Westminster, who is making this trip in the interest of the Canadian Highway Association, flying the pennant of that organization on his Canadian-built machine.

It is Mr. Gilley's intention to make Halifax his starting point, although he is a resident of the Pacific Coast. He is where he complete his preparations. Insofar as possible, it is his intention to follow the outlined route of the Canadian Highway for the entire distance.

No man, perhaps, is better acquainted with the roads in the different parts of Canada than Mr. Gilley, for in addition to the many years spent in lumbering enterprises in British Columbia he has a wide knowledge of road conditions in the Eastern Provinces, where he spent the best part of his life. He believes that the most difficult trip for an automobile in all British Columbia is over the Hope Mountains, a journey which has never been attempted. A road is being built over this section at the present time, and it is possible that a temporary way may be made for an automobile, but it is a foregone conclusion that by the time any machine has travelled over the Hope Mountains it will be fit only for the scrap heap or for exhibition purpose.

Should this cross-Canada tour be successfully negotiated, it will reflect considerable credit on the pathfinder for neither Mr. Gilley nor his brother, G. Emerson Gilley, are practical motor mechanicians and the only knowledge they

have of the interior economy of an automobile is that gained through the use of machines for the past few years.

Valuable data is to be collected during this trip and later embodied in the archives of the Canadian Highway Association, which is to be the custodian of the log of this cross-Canada tour.

Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous floods, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yaws will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

SCIATIC NEURALGIA LUMBAGO

SUFFERED FOR TWENTY-FIVE YEARS, AND COULD GET NO RELIEF

Now Tells of the Wonderful Results Obtained by the Use of

DR. CHASE'S

NERVE FOOD

Sciatica, neuralgia and sciatic rheumatism are the result of a run-down nervous system. For this reason all treatments must necessarily fail which do not build up the nervous system.

Mr. Collins suffered for twenty-five years and never was able to obtain satisfactory treatment until he began the use of Dr. Chase's Nerve Food and Kidney-Liver Pills. While the Nerve Food forms new blood and restores the exhausted nervous system, the Kidney-Liver Pills invigorate the action of kidneys, liver and bowels.

Mr. W. T. Collins, Morpeth, Ont., writes: "It affords me pleasure to be able to speak favorably of the use of Dr. Chase's medicines—the Nerve Food and Kidney-Liver Pills. I had been a sufferer for twenty-five years from sciatica, lumbago and neuralgia and tried almost all the physicians I could hear of, without one particle of benefit, until I commenced to use Dr. Chase's. I noticed an improvement before I had used two boxes, and the benefits obtained by continued use have been wonderful. I now have so much confidence in these two medicines that I have recommended them to dozens of my friends, and I have yet to hear of a single case in which they failed to give the most satisfactory results."

Dr. Chase's medicines are for sale at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Origin of Electric Terms

The ampere which is the unit of volume, is French, taken from the name of Andre Marie Ampere, who founded the science of electric dynamics. The volt which is the unit of the pressure which causes the current to flow, is Italian. The watt, which is the unit of power, is English. The ohm, which is the measure of resistance, is characteristically German. The United States boasts only one electric term so far, the henry, which the unit of self-induction—Scientific American.

Take Their Chances

And now that the rough cold, cough, what are you going to do? I shall study medicine. Rather crowded profession already isn't it?

Can't help that. I shall study medicine, and those who are already in the profession will have to take their chances, that's all. London Opinion.

Said the navy chaplain to the marine, to whom he was endeavoring to demonstrate the undependability of tobacco: "After all, Bill, you must reflect that in all cases of pneumonia, it is not to be found in any animal except man, that smokes." The marine snuffed. Yes, he agreed, and then he asked whether any other animal in all creation that cooks its food.

Minard's Gentia, Ltd. Limited.

Gentia—'I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinarians had treated him without doing him any permanent good.

Yours, etc., WILFRID GAGNE Prop. of Grand Central Hotel, Drummondville, Que., 31.

Miss Begin on the Palings

Better Margaret Lindsay Williams who has won the gold medal of the Royal Academy when carrying with it a travelling scholarship of \$200, is the Christian World states, the daughter of a deacon of Barry Congregational church. She is the youngest artist ever to attain this high distinction, and it is interesting that her first rule efforts in art were made on behalf of a bazaar for the building fund of Barry church. Ten years ago, as a girl of thirteen, she begged her father to let her paint something for the sale. Better begin on the front palings, was her father's joking reply to the girl who this year had a fine picture on the line in the Academy, and is now adjudged "gold medalist"—the first student of her year at the Academy of Art School.

Her Yearling

Little Marjorie Lynn leaned on her grandmother's knee, with an expression with a particularly soulful expression. Oh, grandmother, she burst out suddenly. I just long to grow up and be a big lady and have corns.

On Principle

Bert (nervously): "I heard pa tell me he was going to dog me on principle after my prayers tonight. What's principle, Billy?" Billy—I think it's something at the back. Bert. The last time he dogged me on principle I had to sit all day for more a fortnight—London Tit-Bits.

One Way to Look at It

"A man always gets on easier by taking his wife's advice." "Yes," answered Mr. Meekton. "When things turn out badly there isn't so much said."

A boybody is always misfortunate.

Katla.

LONELIEST SPOT ON EARTH.

Tristan d'Aunha is a Tiny Oasis in a Wilderness of Water.

When Napoleon was sent to St. Helena it was thought that the loneliest place on earth had been assigned to him as a prison. But St. Helena is 1,400 miles nearer a continent than is Tristan d'Aunha. Many hundreds of miles of ocean lie between this island and its nearest neighbor, Tristan, in short, is a tiny oasis in a boundless wilderness of water, so from it is which direction you will.

It is a rocky and cliffy little hole, with a solitary mountain 1,000 feet high rearing itself from the midst. Yet on this lonely speck of rock and earth there lives a community seemingly happy in their isolation from all the rest of the world. They are farmers, cattle raisers and shepherds. In the valleys of the island are the fertile fields, where potatoes mainly are grown. The food of the people consists for the most part of beef, mutton, fowls, potatoes and fish. Tristan used formerly to produce many fruits and vegetables which can no longer be grown there. The reason of this is that the island for a long time was overrun by rats which escaped from the ship that anchored there and which the people had been unable to exterminate—Harper's Weekly.

A FORTRESS OF THORNS.

Curious Nest of the Little Brown Wren of Central America.

The little brown wren of Central America builds a nest of the thorn about five or six times as large as it is, and, to prevent other birds from disturbing its home while it is away it builds a protection of ferns from thorns leading to it.

When Madam Wren looks for a home site, says a writer in the *Ava Maria*, she selects a tree where two branches lie parallel about two feet apart. Across these two branches she and her mate lay a little platform about two feet in length. Near the trunk of the tree is built a dome-shaped nest about a foot in height, and of this nest are all interwoven with thorns.

Next a covered passageway is built from the nest to the end of the platform in all points of the compass. The little fence of thorns is placed, in such a way that any creature not familiar with the passageway will get badly pricked. Finally across the outer end of the tunnel is a movable gateway of thorns.

The Phil That Leads Them All—Phil gradates the most efficient of all medicines, and when easy to take are the most acceptable of preparations. That is why they are so popular. As Parmenter's Vegetable Pills are the most popular of all medicines, they must meet all requirements. Accurately compounded and composed of ingredients proven to be effective in regulating the digestive organs, there is no surer medicine to be had anywhere.

One of the great trans-Atlantic steamship companies has determined to make use of the steamship lifeboats on deck known as "nesting." Nesting requires a boat of special construction, for the steaming lifeboats could not be heaved aboard two, or at the outside, three deep.

Reform in Surgery

That surgeons in recent years, in very recent years, have to some extent come to the opinion that the fortunate person who may furnish them opportunity for the display of their power in the use of saw and knife is himself worthy of some consideration apart from the beautiful operation of a patient. This attitude of mind is not to the surgeons, but to ourselves of the laity. It has not been so long since that the steady hand of the knife in hand, was ready to pounce upon a patient keen to operate with safety from the operation itself might not be a graver source of danger than the deceased condition it void.

There has recently developed, says the New York Medical Record, the opposite tendency. This attitude to the unbounded enthusiasm of the technician for an immediate surgical interference, a tendency to study the patient as well as his disease, to consider the factors of safety present in the individual under consideration, and to take all possible means of increasing the chance of recovery from the operation itself as well as from the disease.

Strength.

"Some scientist has declared that there is as much strength in three eggs as there is in a pound of beef-steak," said the observer.

"Well," replied the actor, "I met an egg once and he was a pound of beef-steak."—Exchange.

On Principle

Bert (nervously): "I heard pa tell me he was going to dog me on principle after my prayers tonight. What's principle, Billy?" Billy—I think it's something at the back. Bert. The last time he dogged me on principle I had to sit all day for more a fortnight—London Tit-Bits.

One Way to Look at It

"A man always gets on easier by taking his wife's advice." "Yes," answered Mr. Meekton. "When things turn out badly there isn't so much said."

A boybody is always misfortunate.

THE GRAIN COMBINE

Past and Present.

Persistence and determination are admirable qualities provided they are exercised in a good cause, but when these virtues are prostituted to facilitate the selfishness they are dangerous to the commonwealth and must be related with equal persistence and determination.

This is the situation in Northwest Canada today. On one hand stands a thoroughly united band of grain dealers, and on the other hand there are the farmers, the producers of the country. The grain men are using every means in their power to exploit the farmers.

The history of the grain trade in the West is one of a continual struggle between the grain producers for fair treatment and the hands of the grain dealers. The struggle dates back to the early days when the first freight of grain was put on the market. The grain men refused to buy the damaged grain and caused much suffering all through the southern parts of Manitoba. Not only farmers, but men of that time sought to reduce the price of grain by arranging to have the grain shipped through to the market by the grain dealers. The C.P.R. aided the farmers by arranging to have the grain shipped through to the market by the grain dealers. As a result every bushel offered was sold at fair prices. As soon as the western grain dealers saw that the farmers had found a way to dispose of their crop, they were quite willing to get into the market too.

This is a fair sample of the tactics of the grain men. They are determined to control the grain trade of the West. Their latest scheme is the sample market. Should they get that, they will again control the sale of wheat.

A sample market in Winnipeg is asked for. As a justification, the sample market in Minneapolis is pointed out. But the conditions are not the same in the two places. In the first place, there are a great many more railways running into Minneapolis than into Winnipeg, therefore the work of re-shipping the grain after the grain is sold is less in Minneapolis. Moreover, the companies and consequently the cars are moved more quickly. Then, owing to the big wheat crop in Minneapolis, over seventy per cent of the wheat delivered in that city is milled there, and the wheat taken into Winnipeg is milled at that point, and the remainder of the wheat is milled elsewhere.

Another claim made in favor of a sample market is that the farmers will receive a better price for their grain. The plea put forth is that a carload of grain that would just go to the mill, and be sold at a price of 10 cents per bushel, whereas if a sample market were in effect, that carload of grain would bring one or two cents per bushel over the price of 10 cents, and by mixing it with a carload that was a grade No. 3 would make two carloads of No. 2.

But experience proves its fallacy. We had grain mixing practiced openly for years, but no one except the grain dealer gained by it. The sample market would kill competition as the man who operates it are the same men who every day who are named the price to be paid for wheat at every buying point in the Western provinces, and by an agency among themselves would name the price to be paid on the sample market. You cannot expect to get grapes from thorns or figs from this.

There is at present a grain board that meets every fall and decides on the grades. If they do their duty properly there is no need whatever for mixing, and at any rate experience has taught that the farmers would never obtain the benefit of it. Another important fact is that the mixing of grain will certainly result in lowering the standard of Western Canadian wheat in Great Britain, who is our chief buyer.

There is a daily paper the *Minister of Trade and Commerce*, at Ottawa, has given notice of the intention of the government to establish sample markets before the crop of 1913 is put on the market. There is therefore no time to be lost by Western farmers and others interested in fair play being given to them. In taking steps to prevent the grain trade being handed over to men who have proven themselves utterly unworthy of confidence.

Minard's Liniment Cures Diptheria.

Routing Ennui

Billkins and his wife live in one of those fashionable, childless apartment houses. The visiting friend says, "I say, what became of your little girl? I never see her." The management wouldn't stand for it so we gave him away. We returned him, but they sent him back. I suggested some goldfish, but Mrs. Billkins said they reminded him of swimming snakes.

How did you finally agree? Excellent. I bought her one of those beautiful, childless apartment houses. I said, "I'll give you a little Pedro and make him do some of his stunts."—St. Louis Republic.

Recently a number of Chinese children had been found in the streets of Paris and taken before the magistrates as vagabonds. These children were brought to France by a woman to perform as acrobats. After a few months their performances having lost their novelty and ceased to attract the managers abandoned them. They have been taken to the Chinese Legation to be sent home. The children don't want to go home. The beautiful city of Paris is more to their liking.

SHEEP EAT RABBITS

One of the Most Remarkable Changes of Diet on Record

One of the most remarkable changes of diet on record was that of the kea, or mountain parrot of New Zealand. Originally a vegetarian, it suddenly took to killing sheep and lambs, devouring certain tit-bits to which it had taken a liking and leaving the rest of the carcass untouched. Owing to these ravages the stock-owners and the Government have been waging a war of extermination against the keas that are interfering with the human liking for fleshy food. Even the sheep at the Antipodes have developed the carnivorous habit, as a Melbourne paper puts it. They have taken to attacking and eating each other as well as rabbits, which are still very numerous in Australia in spite of the prodigious quantities of them that are every year trapped, tinned and exported. So far the phenomenon of the carnivorous sheep has not been noticed outside of New Zealand, but the news will doubtless be soon spread. One paper thinks it possible that Australia may evolve a "wild man-eating merino" that will provide good sport for big-game hunters.

Many Sea Devils

These animals are quite numerous along the coast, 150 to 200 miles south of here. They are adapted to both salt and fresh water. A strange feature of their appearance is the wings along the coast is that they are usually accompanied by a school of sea devils, great sea monsters frequently weighing as much as 4,000 pounds each. One of them who was killed has been known to drag twenty boats, hauled tandem, each carrying two men.

Such an experience came two or three years ago at Annans Pass to a party of fishermen among whom were John W. Robbins then state treasurer; W. G. Stetzel, present state treasurer; and other prominent men. A noted big game hunter and fisherman, J. W. Maxwell, of Austin, Texas, was also present. One of the boats of extraordinary size came to the surface near one of the boats. The boatman sank a harpoon deep into its body. The harpoon being secured to the boat, the animal was pulled up at lightning speed. As the boat to which it was attached passed the boat sank and the animal was pulled up by the giant animal. They were stuck to it for six hours, when it headed out toward the ocean. Then the men raised the signal of distress and a life-saving crew on Harbor Island rowed out and got the monster.

Appendicitis Causes

The question has again been raised in medical journals as to whether the increase in the frequency of appendicitis in recent years may not be due to the use of a certain kind of food. The old millstones that ground so slowly and ground small enough in the old days to be a kind of surgical deterrent to the eating of game; also bunches of berries from a too vigorous use of the toothbrush—Indianapolis News.

A Soft Snap

The Boy—Hully gee! When I grow up I'm going after a political job. The Man—What for? The Boy—So I can go to the ball game every afternoon.

A Bit Superstitious

My poor wife, I said on a Friday, too! I hope it won't bring me bad luck!—Polo Mole.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warpage of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman feels the cause of the trouble to some of the organs of the body. It is a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman usually says, but all the time the real trouble very often centers in the function of the delicate special organs of the sex which are treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from a mixture of delicate organs of the sex, relieved over 90 per cent of such cases. After using this remedy for many years in his private practice, he is now of Dr. Pierce's Favorite Prescription, that would make it really permanent, and it can be seen that the same medicine is used by the same doctors.

Mrs. Leta B. Hawley, of Zions, Va., writes: "I had been running in health for two years—most of the time was able to stand to my knees. I was very healthy and I was getting very old, but thanks to Doctor Pierce's Favorite Prescription, I am now a young woman again. I have nothing but praise for Dr. Pierce's Favorite Prescription."

Take Dr. Pierce's Pleasant Pellets for Liver Ills.

Child Meets Terrible Death

Katie Maguire, Passburg, Victim To The Flames

A terrible fatality occurred at Passburg on Monday afternoon, which resulted in the death of little Katie Maguire, aged 13 years. About 3 o'clock the mother left the house to go to town from the ranch which is about two miles north, the little girl having been outside on the ranch at the time. Shortly after the mother's departure, it is supposed, the little girl entered the house and started a fire which spread to the building soon filling the place with flames so that the child failed to make an exit. Mr. Pearson, working on a ranch a short distance away, was first to notice the flames and immediately repaired to the scene. Not seeing anyone moving around there he presumed the mother and child had both been out town, and as the flames had then gained great headway, it was useless to attempt to save anything. After the building had been reduced to ashes the little girl was discovered frightfully charred beyond recognition. The body was removed by William Duncan. The mother arrived on the scene shortly after the fire occurred and was rendered almost frantic over the sudden and terrible fate of her little child.

Coroner Finkney was immediately summoned and an arrival after the necessary examination decided that an inquest was not necessary, as the circumstances surrounding the sad affair were of a purely accidental nature. At the time of the accident, the father was working in the mine.

In The Feminine Arena

A stirring six round bout was witnessed near Cornwall street a few evenings ago. The contestants were a colored lady and a woman from Newfoundland. It was a bitter fight while it lasted, and there was nothing of the rough and tumble about it, either. Not once a hair was pulled, and in the clinches it was hit with one arm free and a clean break away. Twice did the dusky one floor her opponent with right arm jabs, but the latter every time responded. The fight was fairly even until the opening of round six, when Fern Norton floored for the count. Now the next round is likely to be in the police court. Another fist fight between a colored lady and a white woman took place since the first one, and in close proximity to the six round affair. The white woman was accused with stealing jam from a neighbor's cellar, and when she called her accuser a nasty critter, the fight began. As in the former bout, the colored lady defeated her opponent. And this, too, will mean lawsuit. North Sydney Herald.

Don't miss the twenty-round boxing contest between Freddie Beaulieu and Louie Britano.

Happenings in and Around Frank

Saturday was a fairly busy day here, the pay roll amounting to, in the neighborhood of \$29,000.

Dr. J. W. Mackay, who had been attending the medical convention at Edmonton, returned to town this week.

Rev. W. T. Young will officiate at the Institutional church, Coleman, both morning and evening on Sunday next.

Rev. J. G. G. Bompas, of the Institutional church, Coleman, will occupy the pulpit at Knox Methodist church on Sunday night next.

Several promoters of the new clay products company were in town this week, looking over the proposed location of the new works.

The contract for the removal of Frank to the new townsite is still under consideration, and it is hoped that definite terms will be arrived at in a few days.

H. H. Cromwell, of the Canadian Credit Men's Association, Calgary, arrived in town on Monday, to make arrangements for a big auction sale of Lang's stock. The sale took place on Wednesday afternoon and was kept up until 10 p.m., during which time a large quantity of goods was disposed of.

Coun. McLeod at MacLeod

This obscure hamlet was honored last week by a festive visit from Coun. Archie McLeod, the stormy petrel of the Blairmore town council. Coun. McLeod took occasion to express his disapproval of the action of the MacLeod council in giving an option on their debentures.

It is not all sunshine with the Blairmore council either, as Council McLeod admitted.

"It has been three months since we had a council meeting," he said.

Coun. McLeod and Mayor Lyons are ranged on opposite sides on the question as to where the proposed new fire hall is to be located. The council authorized the purchase of two lots in the centre of the business part of the town, but Mayor Lyons has refused to sign the check for the purchase price of the lots. The vendor has taken his claim to court, and is being represented by Campbell & Pawest.

The council passed a motion that no defence be filed, but the Mayor on his own responsibility has filed a defence.

The case will come up at the fall term of the supreme court.

Councillor McLeod says that Blairmore is going ahead with wonderful strides.

"If you don't believe me, ask Mike Ross," were the convincing words which he terminated a eulogy of his home town. - Macleod Spectator.

Carnegie's Gifts

Sixty thousand dollars is not sufficient inducement to the members of the board to carve the name of Andrew Carnegie on the slab of stone over the entrance of a library that would meet the requirements of the city of Edmonton. Accordingly, they adopted a resolution at their last executive meeting declining the offer and conditions and turned the matter over to A. G. Harrison, a member of the board of commissioners, for final disposal. Mr. Carnegie's original offer was based upon a population of about half of what it is today. When informed that the city has a population of 52,883, according to a census completed on July 8, Mr. Carnegie replied that he felt compelled to take the figures compiled a year ago by the Dominion enumerators and would limit his grant to \$50,000. The library board has recommended to the commissioners that they consider the question of submitting a by-law to the ratepayers for the raising of sufficient funds to construct the first unit of a municipal-owned public library.

Over ten thousand harvesters are at present enroute to the west.

Notes From Burnis

E. T. Fitzsimmons was a Blairmore visitor on Sunday.

L. C. Stevens was a business visitor in Blair last week end.

K. Mitchell and wife were week end visitors to the Pittsburg of Canada.

Mrs. Geo. Hape and daughter are visiting with friends in Lethbridge this week.

Ben Bernayl gave a little pink tea to some of the boys on Sunday, which was very much appreciated.

The new C.P.R. depot is nearing completion, and is expected to be finished in the course of a week or so.

The new school is practically completed, and the boys are contemplating holding a social and dance on the opening occasion.

Uncle Billy is causing quite a commotion in town this week by his roving exploits on "Bliss." Uncle is figuring on going to Calgary to the stampede, and says he will show those tenderloins something.

The Order of Guzmans met again this week, and the following is a verbatim report of the discussions which took place:

Secretary has received a communication that the Pope-Astor \$1,000,000 baby was born, and the following is a verbatim report of the discussions which took place: That it indulges in light opera, as every other baby does, and has similar taste and habits. Not so very wonderful after all.

The Order regrets that our representative, who gave the C.P.R. a valuable lesson in the art of switching box cars, in such a way that the mines could be kept running, should so soon be forgotten.

Already the nightmare of shortage is upon us, and we wonder why the C.P.R. can't get away with it so easily, as some of our large operators must feel the pinch of standing charges under reduced output.

We wouldn't say that they are afraid to kick, but we have a hunch that they wish to take no chances in offending their large customers, and getting a turn-down. What they may admit verbally and what they put in black and white, are two different things.

One of our Blairmore friends is now in the hospital with a fractured jaw, caused by an accident in the mine last week.

Quite a number of Blairmore sports went to Blairmore on Saturday night to take in the fight. Most of the time was spent in crossing the slide.

Mr. Wilkinson, organizer for the times labor council of B.C., delivered an address on the present labor situation in the Socialist Hall on Sunday evening. A large number listened to the address.

The Blairmore football team will contest against Michel for the honor of "The Grow's" Next Pass League on Saturday next. It is likely that a large number of the local enthusiasts will go up to boost for the team.

The Blairmore club returned from their camp at Grow's. Next Lake on Saturday and all reported a splendid time, which was all too short. And they are already looking forward to a similar outing next year. The next ramble will take place next Saturday when the boys intend to do some exploring among the mountains.

At the trial of "Miche" Ross held at Macleod last week the Mounted Police failed to produce evidence enough to procure a conviction in the charge of theft, that was laid against him, and "Miche" was acquitted. This was evidently a case where an intended judge appeared like a serious offence, and we are pleased that the judge took such a common-sense view of the matter.

Bellevue children have heard the echoes of their teachers' and are all back to school again. Much dissatisfaction is felt that the new building which we hoped would be ready for the school opening has not yet materialized.

The trustees report that the delay has been caused by circumstances over which they had no control and that they are having no stone intended to have the new school up as speedily as possible.

Everyone is looking forward to the coming combat between Freddie Beaulieu and Louie Britano for the featherweight championship of Western Canada. The exhibition given by these two young men about a month ago was sufficient to ensure them a crowded house on this occasion. The event takes place at the Socialist hall on the afternoon of Monday, September 2nd. - Labor Day - the preliminary bouts to start at 2:30 and the main feature at 4 p.m. Tickets are for sale at Cole's pool room, the Southern Hotel and by members of the committee. Price same as last bout, \$1.00, \$1.50 and \$2.00.

"Were all medicines as mercurious as Chamberlain's Colic, Cholera and Diarrhoea Remedy, the world would be a different place," writes M.E. Gubardt, Oriskany, Pa. There is nothing better. For sale by all dealers.

Happenings in and Around Bellevue

Mrs. Nabb visited Fernie over Sunday.

Mrs. George Davis is visiting in Fernie.

Joseph Elson is working at Pulley Lake.

Jack Oliphant is working at the South-errill hotel.

Work is progressing on the Union Bank building.

Mrs. Gill Cousins spent Tuesday in Blairmore.

Mrs. Bureau, of Fernie, is visiting Mrs. G. Cousins.

Mrs. Christie and Mrs. Addison spent Monday in Blairmore.

Chas. O'Brien, M.P.P., spent Sunday with Mr. Glen Stebbins.

Mrs. J. Naylor returned from a visit with her mother in Macleod.

A. I. Blais is building a warehouse in connection with his business here.

Will Rochester got his leg badly hurt at Hillcrest mine on Tuesday morning.

Mr. Bennett, late editor of the District Ledger, spent the week end in the camp.

The local football team have an invitation to play at Macleod sports on Labor Day.

Mr. Johnston, the local carpenter, will move with his family to Calgary in a few days.

The food here has a large base in trout, which greatly increased its efficiency.

An accident on the logging machine at the tipple on Monday night paralyzed shipping from the mine on Tuesday.

Mr. Irwin will preach in the Methodist church on Sunday evening next on "The Essential Character of True Religion."

The band gave an open air concert on Sunday afternoon which was enjoyed by a large number of the local music-lovers.

Phil Hurt has sold out his lumber business to P. Burns. Mr. May, of Lillo, is managing the store for the latter firm.

One of our Blairmore friends is now in the hospital with a fractured jaw, caused by an accident in the mine last week.

Miss Lima Leeli is visiting in Coleman.

Mrs. J. B. Ridd returned from Macleod on Saturday.

Over 500 men are now employed in the Bellevue, and others are being added each week.

The Burnie Gussak was seen "preying" around the Methodist church last Sunday night.

The pay-roll for last month was the largest on record. Nearly \$40,000 was distributed among the Bellevue miners.

Mr. Irwin preached on Sunday night in the Methodist church on "Saul at the Stoning of Stephen." Next Sunday evening he will preach on the "Conversion of Saul."
